

DISTANT THERMOMETER

with
Capillary, Bulkhead
Gland & Switches

The Distant Thermometer is suitable for Cargo Pump Casing and Bearing Temperature Alarm and Trip. It is in accordance to IMO Regulation, SOLAS Chapter II-2, Reg. 4.5.10.1.1

Technical Data

Model	Q2610-9AR1
Temperature Range	0 to 100 °C
Remote Measuring Length	Maximum Length (16 meters)
Electric Contact	2 Contacts Type - Upper (or Lower)
(Normally Open)	Limit Type with 2 contacts, Upper & Lower Limit Type with 2 contacts
Indication Accuracy	Within ± 1 graduation
Contact Capacity	AC 100/200V 0.4/0.2A
Contact Adjusting Method	Internal or External Adjusting Method
Conduit System	PF $\frac{1}{2}$ "
Option	Maximum Temperature Pointer
Approximate Weight	3 kgs
